CODEALPHA INTERNSHIP — TASK 3

Typography *Practice*

Better Fonts • Clearer Messages • Stronger Designs

Task Overview

Practising how type shapes meaning, mood and readability.

Typography Practice is Task 3 of my Graphic Designing internship at CodeAlpha. The task is to use fonts with intention: choosing pairings, building a clear hierarchy, controlling spacing and alignment, and understanding how type styles create emotion.

WHAT THE DESIGN COVERS

1. **Font Pairing**
   Three heading + body combinations
2. **Typography Hierarchy**
   Sizes, weights and styles with clear structure
3. **Spacing & Alignment**
   How spacing and alignment change the feel
4. **Typography Psychology**
   Type styles and the emotions they create
5. **Final Typography Poster**
   Everything combined in one composition

Font Pairing

Perfect font combinations create harmony and make a message more effective.

TAKEAWAY A distinctive heading font paired with a calm body font adds interest while keeping the text easy to read.

Typography Hierarchy

Different sizes, weights and styles create a clear visual structure.

TYPE SPECIFICATIONS

H1 **Heading**
Playfair Display Bold — 48 / 56 px

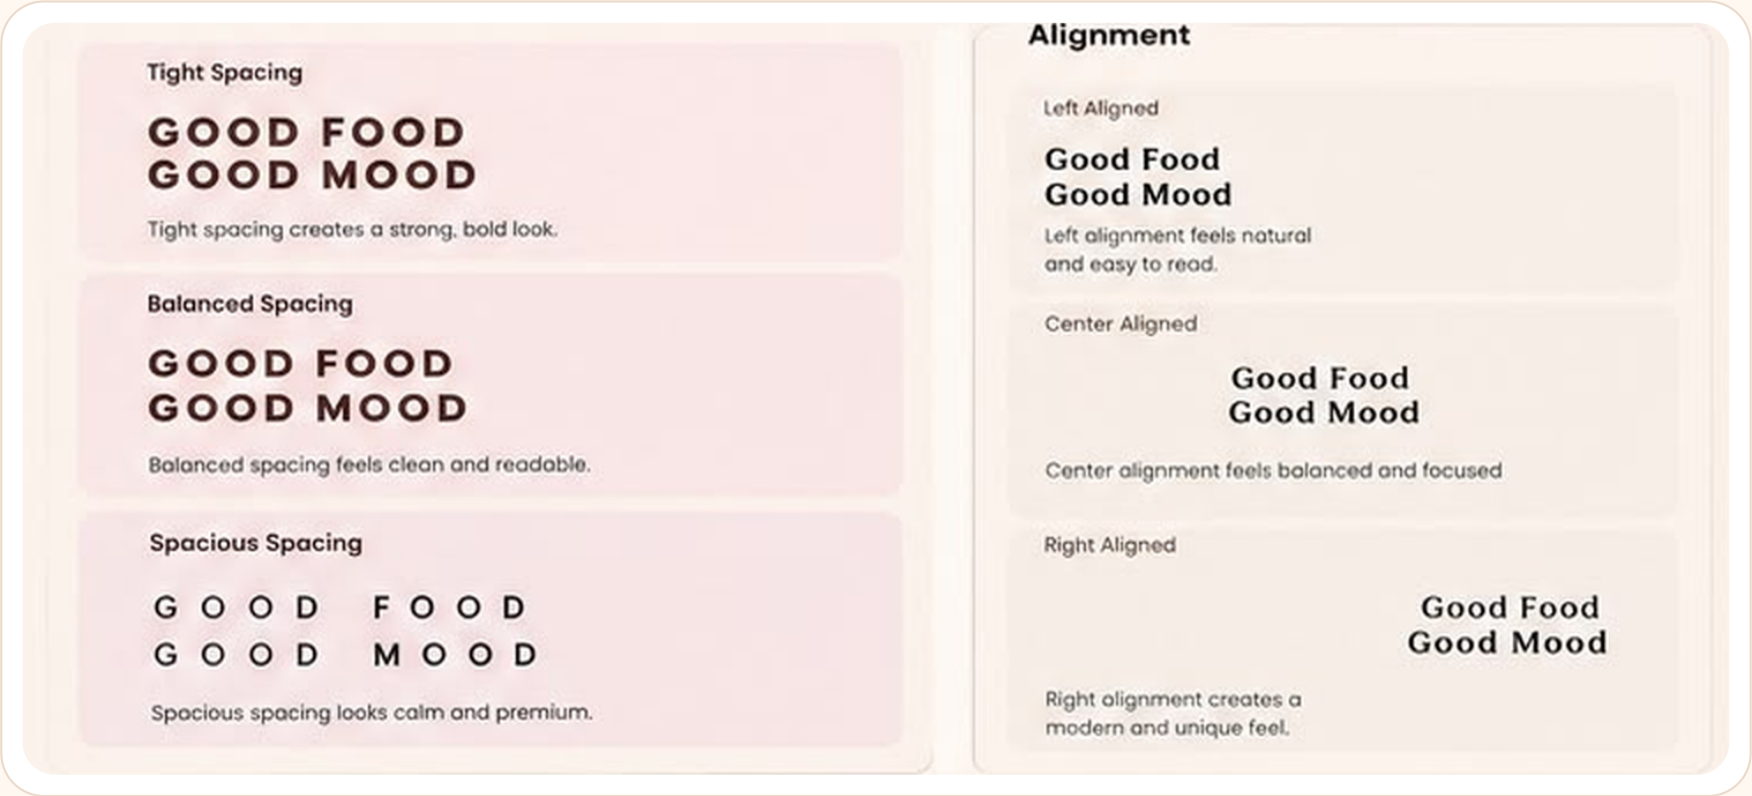

H2 **Subheading**
Poppins SemiBold — 20 / 28 px

BODY **Paragraph**
Poppins Regular — 14 / 22 px

CAPTION **Small text**
Poppins Medium — 12 / 16 px

Spacing & Alignment

The same text feels different when spacing and alignment change.

TAKEAWAY Tight spacing feels bold, wide spacing feels calm and premium, and alignment sets the tone of the layout.

Typography Psychology

Different type styles create different emotions.

MOOD
Elegant
Serif fonts

MOOD
Friendly
Handwritten fonts

MOOD
Professional
Sans-serif fonts

MOOD
Bold
Heavy weights

Final Typography Poster

A complete composition using typography, hierarchy, spacing, alignment and style.

Typography | Hierarchy | Spacing | Alignment | Style

Key Learnings & Outcome

What this practice task showed me about working with type.

01

Font Pairing

Combine a heading font with a body font to build harmony.

02

Hierarchy

Size, weight and style guide the reader through the content.

03

Spacing & Alignment

Small changes in spacing and alignment change the mood.

04

Psychology

Every type style carries a feeling, so choose it on purpose.

OUTCOME

Through this task I practised combining fonts, hierarchy, spacing, alignment and style to make messages clearer and designs stronger.
