FINAL SELECTED LOGO · PRIMARY HORIZONTAL

Unofficial student redesign concept — not an official rebrand by The Cakery Bakery.

Project Overview

A friendly home bakery, ready for a cleaner and more flexible identity.

The Cakery Bakery is a home-based custom cake and cupcake bakery in Lahore, Pakistan.

PROJECT GOAL

Refresh the existing visual identity with a cleaner, more modern and more versatile logo that is easier to use across print and digital touchpoints.

DESIGN INTENT

- Stay friendly, sweet and bakery-focused
- Improve readability and everyday usability
- Build a simple system of logo versions and brand colours

PROJECT SNAPSHOT

BRAND
The Cakery Bakery

BUSINESS
Home-based custom cakes & cupcakes

LOCATION
Lahore, Pakistan

PROJECT TYPE
Logo redesign / brand identity refresh

INTERNSHIP
CodeAlpha — Graphic Designing, Task 1

DESIGNER
Saliha Nadeem, BSIT student

Please note
This is an unofficial student redesign concept created for a CodeAlpha internship project. It is not an official redesign by The Cakery Bakery.

Original Logo

The existing identity, shown here as the starting point of the redesign.

ORIGINAL LOGO · PROVIDED BY THE DESIGNER

VISUAL DIRECTION

- **Detailed illustrated character**
  A hand-illustrated baker figure carries the personality of the brand.
- **More decorative visual style**
  Layered colours and fine details give a charming, crafted look.
- **Less scalable for small digital use**
  Fine detail becomes harder to read at profile-picture and icon sizes.
- **Less flexible across packaging and social**
  The full illustration is harder to adapt to stickers, boxes and bags.

Design Problem

The challenge that guided every decision in the redesign.

> How can the existing bakery identity be simplified into a modern, memorable and versatile logo while maintaining its friendly bakery personality?

KEY GOALS

01
Modernize the visual identity

02
Improve readability

03
Simplify the visual language

04
Create a recognizable bakery symbol

05
Make the logo adaptable to packaging and social media

06
Maintain a warm and friendly bakery feeling

Design Direction / Moodboard

Soft, sweet and modern — drawn from bakery products, packaging and clean branding.

Cupcakes

Cakes

Bakery packaging

Soft feminine aesthetics

The Cakery Bakery
Custom Cakes & Cupcakes

Modern minimal branding

Friendly, premium language

KEYWORDS

Modern · Sweet · Friendly · Premium · Warm · Minimal · Playful

Moodboard images are taken from the project's own mockups and logo files.

Color Palette

A warm, bakery-inspired palette built around raspberry, blush and cocoa.

PRIMARY

Raspberry Pink

#C2185B

Creates brand recognition and energy.

PRIMARY

Blush Pink

#F8BBD0

Adds softness and sweetness.

PRIMARY

Cocoa Brown

#4E342E

Provides warmth and readable contrast.

BACKGROUND

Cream

#FFF8F0

Creates a soft, bakery-inspired background.

ACCENT ONLY

Gold Accent

#D4A24C

Used only as a subtle premium accent.

Gold appears only as a small accent in the artwork (for example the cherry stem and the wrapper trim on the dark-background version).

Typography

Friendly, rounded lettering that stays easy to read.

WORDMARK TYPOGRAPHY · FROM THE FINAL LOGO

TYPEFACE STYLE

Rounded modern sans-serif / friendly display typography

The exact font name has not been verified from the design information, so the style is described rather than named.

Rounded letterforms
Support the friendly bakery personality.

Strong weight
Improves readability at a glance, including on packaging.

Simple supporting text
The tagline stays clean, light and uncluttered.

This document is set in Poppins for presentation; the logo wordmark uses its own custom lettering.

Logo Design Concept

A simple cupcake symbol paired with a clear, friendly wordmark.

CUPCAKE SYMBOL

1. **Cupcake icon**
   Represents the bakery's core product.

2. **Simplified shapes**
   Make the identity easier to recognize.

3. **Rounded forms**
   Create a friendly and approachable personality.

4. **Clear wordmark**
   Provides direct brand recognition.

5. **Built to adapt**
   Intended to work across digital and physical applications.

Logo Variations

One symbol and wordmark system, adapted for different uses.

A. Primary Horizontal Logo

Main logo for packaging, banners, menus and website headers.

B. Stacked Logo

For square or narrow spaces such as stickers and box labels.

C. Dark Background Version

For cocoa or dark surfaces, covers and presentation slides.

D. App Icon / Profile Mark

For app icons, social media profile pictures and favicons.

E. Monochrome (B&W) Version

For one-colour print, stamps and low-ink applications.

ONE SYSTEM

Every version keeps the same cupcake symbol, rounded wordmark and tagline so the brand stays consistent in any format.

Final Logo Selection

The Primary Horizontal Logo is the strongest, most complete version.

PRIMARY LOGO

SELECTED PRIMARY LOGO · HORIZONTAL

WHY IT WAS SELECTED

Strong brand recognition
Symbol and wordmark read together instantly.

Good readability
Bold lettering and clear contrast on cream.

Flexible horizontal composition
Fits wide and short spaces with ease.

Works on packaging and digital
Proven on the box, bag and profile mockups.

Friendly bakery identity
Keeps the warm, playful character.

Before & After

From a detailed illustration to a simple, versatile brand system.

BEFORE · ORIGINAL LOGO

AFTER · REDESIGNED LOGO

Detailed illustration	->	**Simplified visual language**
Complex character	->	**Recognizable cupcake symbol**
Decorative identity	->	**Cleaner brand system**
Limited applications	->	**More versatile applications**
Less scalable	->	**Better small-size usability**

Brand Application Mockups

The logo applied to takeaway packaging.

A. Cake Box Packaging

The stacked logo is centred on the cream lid, framed by raspberry sides, soft blush shapes and a short tagline. The wordmark stays clear and easy to read on packaging.

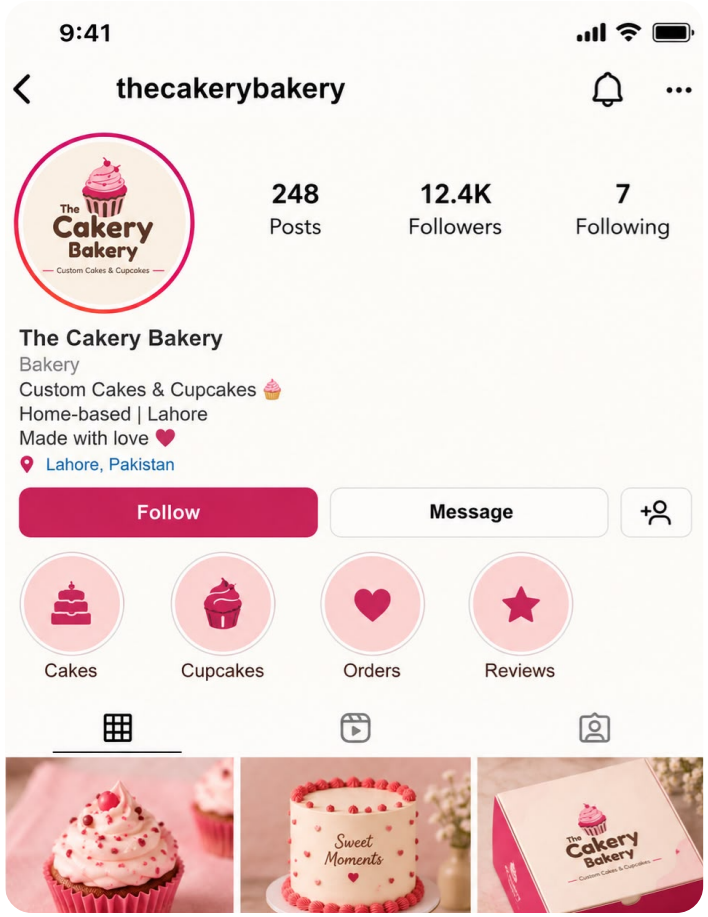

B. Bakery Shopping Bag

The identity extends to takeaway packaging with the same palette and blush shapes, with the cupcake mark repeated on the side panel and cup.

Instagram Profile Mockup

The profile mark as a digital and social media identity.

C. INSTAGRAM PROFILE

The circular profile mark keeps the cupcake and wordmark readable at a small size, so the bakery is recognizable in the feed, in search and on its profile page.

- Cream background matches the packaging
- Raspberry accents carry through buttons and highlights
- Highlight icons reuse the pink palette

Placeholder content

Post counts, follower numbers and captions shown in this mockup are visual placeholders only and do not represent real business data.

Design Rationale & Outcome

Five decisions that shaped the redesign.

01

Icon

The cupcake symbol directly communicates the bakery category and creates a memorable visual element.

02

Color

Raspberry and blush pink communicate sweetness and warmth, while cocoa brown adds grounded contrast.

03

Typography

Friendly rounded typography supports an approachable bakery personality while maintaining readability.

04

Simplicity

Reducing unnecessary detail improves scalability and makes the logo more adaptable.

05

Versatility

The identity can be used across packaging, stickers, social media profiles and other brand touchpoints.

DESIGN OUTCOME

The redesign transforms the original illustrated identity into a cleaner, more modern and versatile bakery identity while preserving its warm and playful character.
